

"The Ottawa Spotlight"

(By Wilfrid Eggleston)

Ottawa, Sept. 1st. The announcement that the Canadian Wheat Board would pay \$7 1/2 cents a bushel for the 1936 crop, at a minimum price, and that only in the event that the market price dropped below in cents proved disappointing to many farmers in the west, who had been advertising a minimum price of a dollar or even higher. The Board's circular widely laid back a reprint from western publication tending to show that the average cost of raising a bushel of wheat on the prairie was \$1.03; and it was argued that in view of this year's light harvest the wheat producer should be guaranteed something better than \$7 1/2 cents. For years the west has been agitating to be delivered from fluctuating wheat prices, and from private speculation on the Grain Exchange. But the announcement last week indicated that the government sticks to its original idea, to support the wheat grower against collapse, but not to get involved in the wheat business one whit more than is absolutely necessary.

Responsible to All Canada. The Ottawa government, after all is responsible to citizens from Charlottetown and Halifax to Victoria and Prince Rupert; while the wheat growers are a mighty force in the country, their demands must always be weighed with those of the farmer, the textile worker, the miner, the farmer of the east, the fruit grower and miner of B. C. and so on. If the federal government is going to guarantee cost of production, it is a bit of profit as well, to the wheat producer, all these other people are entitled to come along for their share. The budget of 1936 would cost of 21 million dollars less incurred through the stabilization of wheat, and the federal government could be saving much more than it has done now, without widespread criticism. For years there have been rumblings and grumblings in the wheat belt, in regard to wheat. So that as against the dissatisfaction and loss of votes which the government faces for not having taken a more active stand in support of the present wheat price, it must weigh the rebellion which would have developed in other parts of the country, had it once more wholeheartedly into the wheat business, and had incurred its cost again.

It is quite possible that wheat will sell well above the minimum price, support or no support; and on the whole the action of the government is a courageous and correct one in the light of its philosophy and promises. The present wheat act was really the child of the Liberal government. If introduced by a Conservative government; and their theory of a minimum price was exactly the role which the current price will probably play support without the need of the government buying and handling the whole crop.

Cattle for Eastern Feeding. The eastern farmer is being encouraged to buy western cattle for feeding. At the last minute it was decided to refund half the freight if cattle were retained three months; instead of paying a cash bonus as forecast in my last article. And the feed crop, financed, no doubt to some extent by the government, is to see to it that the worn out kitchen equipment of the farmer who has been afflicted year after year by drought is to be replaced. The usual relief measures do not include such things, but after years of crop failure, every farmer in the home needs mending or replacing: pots and pans, kettles, stove ranges, and the like.

New Trade Agreements. Hon. W. D. Elner, Minister of Trade and Commerce, is back from Europe, where he negotiated several trade agreements. The nature of them will be made public this week. With European conditions so difficult, it is doubtful whether any sweeping arrangements were possible, but the Liberal theory is that there is trade to be secured if it is done after an aggressively enough. And the European agreements are completed, there are new treaties to negotiate with Australia and New Zealand. It will be interesting to see if Mr. Elner succeeded where Messrs Stevens and Hanson failed relatively. The Liberals, of course, argue that you can't expect others to buy from you unless you buy from them, and any European agreements inevitably involve some further reduction of the Canadian tariff.

LABOR DAY SERVICES IN THE UNITED CHURCH

When Jesus lived among the fisher folk at Galilee, it is recorded of him, that "the common people heard him gladly." In spite of statements to the contrary, the church has always been interested a very one but especially in the common folk. In modern times, single evidence of this has been shown in the regular observance of the Sunday before Labor Day as a special anniversary for the discussion of the problems of the laboring man. Denominational headquarters have issued special material for their ministers and leaders and this year the Federation of Churches of Christ in America has issued a statement with the request that it be read in the churches.

Next Sunday, September 6th, our United Church will observe this established custom and the subject for the sermon will be, "We Want Work." Our choir will assist in the worship and Mrs. Knapp will sing Jessie May Jewett's setting of "Lord Teach Us to Pray."

The full session of the Church School also opens next Sunday. You are invited to worship in the United Church. Church School at 11 a.m. Evening Worship at 7:30 p.m.

Weekly News Letter From Edmonton

By T. B. Windsor

Edmonton, Alta. The special session of the legislature has started on Monday and is likely to go into the middle of another, despite the efforts of the government to have the work of the house expedited so as to finish in the shortest possible period. The house adjourned Friday afternoon to meet Monday afternoon and proceed with the more important legislation remaining to be put through.

The highlights of the session came Thursday when the new Social Credit bill, titled: "An act to provide the people of Alberta with additional credit," was introduced by Hon. E. C. Manning, minister of trade and industry.

This bill authorizes the establishment of the Alberta Credit House through which the basic divisions will be paid. It is the fulfillment of one of the principal promises made by Premier Abernethy before the election for making the final step in the plan when registration of citizens is complete.

It is a comprehensive bill covering all the government of the province's Social Credit scheme as far as the machinery for paying basic divisions is concerned. In brief it is the machinery for making the payments. Many features are too numerous to be stated fully here.

The act provides for the establishment of the credit house, its constituent and officials with headquarters in Edmonton, the validity of registration, conditions for receiving dividends, the persons entitled to dividends, free loans, and compensation.

TOWN COUNCIL

NEW CONCRETE SIDEWALK

There was a lot of public interest at our last meeting, but the committee on the new concrete sidewalk on the side walks of the Town. A start has already been made on the plank side walk on the 10th Avenue. Now the Council is embarking on a more ambitious scheme, that of the formation of a six foot concrete side walk on the 10th Avenue. The intention of the Second and Third Avenue, facing the Memorial Hall, the Union Church and other properties. Mr. Hurd has been awarded the contract. The Council hopes through to proceed further in the good work.

NEED AGGRESSIVE SELLING POLICY

A more aggressive sales and promotion policy for Canadian products in the British market is essential if Canada is to take advantage of her opportunities there, and keep pace with other dominions in the search for increased sales.

Hon. J. C. Gardiner, Minister of Agriculture, believes, as a result of his tour in the Old Country, Mr. Gardiner spent six weeks on a mission which had as its main object to see whether, agreements or no agreements, it was not possible to increase our shipments of agricultural products to the United Kingdom.

The Minister came back with some specific proposals which will be discussed with his colleagues. If they are adopted, it will mean a considerable enhancement of Canada's annual staff in Britain at present, which in the opinion of the Minister, is a large enough to carry on the kind of aggressive advertising and investigation which should be going on.

Not only is there a need for more and better advertising, but the department here, and the producers of Canada, should be kept more continuously and intimately informed about the peculiar needs and desires of the British buying public.

WEEKLY EDITORS WILL MEET OCT. 9 AND 10

The executive committee of the Alberta branch of the Canadian Weekly Newspaper Association has set for October 9 and 10 for their annual convention dates. Ninety of the ninety-five papers are members of the association.

ing discounts to retailers selling below the price outside the province, and it provides for penalties for default in repaying loans as well as regulations governing continuance of the dividend to individuals.

The Social Credit bill passed through the house with very little criticism from opposition benches, although the debate on the speech from the throne was marked by fireworks and cross firing among the members on both sides of Mr. Speaker.

S. A. G. Barnes gave a statement in justification of his recent criticism of Premier Abernethy, but it was a mild and very unimpressive one considering how he had promised to turn the full charges of his heavy artillery on the Premier's administration since the session opened. His chief complaint was that the premier acted "like a dictator," and that he objected to being told what he should do as a member "over the radio."

The second important measure came before the legislature on Monday this week, when Hon. W. J. Hughes, attorney general introduced the amendments to the Debt Adjustment Act, bringing the provisions of the act to bear on debts contracted since 1932 and up to 1935 as well as its original provision for debts previous to 1932.

The bill is its drastic reduction of interest rates to five per cent with all paid over that rate to apply on the principal of debts contracted before 1932.

Protests were heard from representatives of mortgage companies and financial houses, but it was a mild protesting these interests waited on the members of the cabinet to place their views before the government, but the measure was not against the administration's determination to provide some relief of a substantial nature for the overburdened debtors.

Premier Abernethy made it clear that the interests of finance came second to those of the heavily burdened people who have to pay the bulk of the taxes and carry the bulk of the debt burden of the province.

During the past week there was no substantial opposition voiced in the discussion of the legislature, with the exception of a speech by G. H. Van Allen, Liberal, and short speeches by L. A. McLean, Conservative, and Dr. Walter Marshall, the new Liberal member, the debate on the throne speech went off quickly. The speeches of the members of the opposition were of little moment of brevity.

D. M. Duggan the Conservative leader did not succeed in getting his private bill to amend the law relating to frozen savings certificates into circulation as far as second reading. Hon. A. Fallow, minister of public works explained the views of the government in refusing to vote for the bill. He said the holders of these certificates would be in a bad position, but would be able to work off their certificates through to the investment "volves." As it is, he said these certificates would eventually realize their full face value, but if they were allowed to go onto the market now they would be heavily discounted and probably sold at a loss.

The house is proceeding and will probably finish its work on Wednesday or Thursday at latest.

PRESIDENT ROOSEVELT'S PEACE PLAN

President Roosevelt's suggestion to call a Peace Conference of the world's leading rulers, viz. King Edward, Mr. Hoover, Mr. Stimson and the President to meet and discuss with all their cards on the table the future as to war prevention, world disarmament, etc., etc. looks hopeful. The evident purpose to do this, if he is elected, and while much may happen in the next two months, at present the odds are largely in his favor. It would look like a strong gesture, in promoting the cause of Peace in the world and in such we wish that his power may be increased.

THE MEETING OF THE LEAGUE OF NATIONS

What constructive mission can the nations take to the annual meeting of the Assembly of the League of Nations at Geneva this month? It is a grave moment. The elements that make for war are active in Europe today. The fear of war is active in Europe today. War is not inevitable and the truth is that men are today capable of making peace inevitable. The peoples of the world genuinely desire peace and will, we believe, respond to a leadership which is honest and courageously dedicated to peace. The need is not for more treaties and more alliances, for these almost invariably represent dishonesty and distrust. The need is for an honesty of purpose and a courage born of that honesty, which will give the September Assembly of the League an inspired objective and which therefore cannot fail to find a responsiveness which will give it strength.

The September Assembly awaits a clear and compelling call to the support of such an objective. The failure to stop war in Manchuria and Ethiopia has not proved that war cannot be stopped. It has merely proved that war cannot be stopped without removing the causes of war. Subtle diplomacy, strategic alliances and international selfishness have failed at Geneva. Honesty and courage deserve a trial. Europe's extrajudicial should be their opportunity. A genuine, sincere effort to remove the causes of war, to base security upon justice, is the constructive mission which can make the September As-

sembly a rebirth for the League of Nations, and a rebelling of the determination to make peace inevitable by making a peace that is just.

COMMUNISM OR FASCISM IN EUROPE

The line-up in Europe appears to be Fascism vs. Communism. The ruling class versus the common people. On the one hand there are the countries ruled by dictators, Germany, Italy and Austria, and on the other hand there is Russia and France, one ruled by communists and the other by a king brand of the same brand. Spain has for weeks been in the throes of a civil war between the Socialist government and Fascist rebels, and the fear is that this clash will be the spark that will again set the world afire. Italy and Germany desire that the rebels be successful; France and Russia are equally anxious that the Communist government win the conflict, and allowing for exaggerations and rumors which are so common in such a conflict, there may be a certain amount of truth in the assertions that Communists are helping their comrades in Spain while Fascists are helping the rebels.

Where Great Britain and the United States would stand in such a conflict is problematical. Britain is not ready for class warfare—indeed, it may well be that constitutional procedure will continue to prevail in the heart of the Empire. The present British Labor group has declared against participation in any war, and it hardly needs to be said that they would never fight in support of Fascist governments. People are not as easily influenced today as they once were by skilled orators and propagandists, and there are good reasons why Britain is straddling the fence and not taking sides in the present tense situation. There are also good reasons why Canada is likely to be even more neutral than Britain. —Hawker Post.

ARDENOE

Friends and neighbors of Mrs. Wanda Platt will be very pleased to hear of her splendid recovery, after her operation in the Holy Cross Hospital.

Mrs. Beatrice Asplen and daughter Caroline, were visitors at the home of Mr. and Mrs. D. S. Brown, Sunday last. Caroline is spending a few days in the district.

Miss Vera Sturgeon is recruiting her studies in Strathmore high school and will make her home with Mr. and Mrs. T. S. Hughes.

Serviceberry Creek School will reopen September 1st with Mr. Norman Ellis as teacher. Several new students are making their debut for the first time.

Alex Melenchuk is taking his studies in the Crescent Heights High School.

We are pleased to report the progress of Mr. and Mrs. L. Hilton's children after having their tonsils removed by Dr. John Giffen.

Miss Constance Roads of Brooks is spending a few days with Mr. and Mrs. J. Sealey.

Mrs. A. Melenchuk spent a few days with her brother Mr. Busack at Tulley last week.

Mrs. Wm. Whyte is spending a few days with her daughter at Purple Springs, Alta.

Miss Gladys James who has been spending her holidays with her parents left for Raymond last week where she is teaching.

Miss L. Lytle has returned home after spending a very enjoyable holiday motoring through the mountains.

Threshing is well under way in the district. We hope the weather man will do his best and enable us all to say—It is finished.

GOOD PRICES FOR POTATOES
ANTICIPATED

Lethbridge, August 12. Potato grow-
ers are being urged by dealers here
to take good care of their potatoes, as
the root crop will demand real prices
this fall. The potatoes will double in
weight the next month, experts at-
tend. By keeping the roots well killed
up, frost and sun damage can be av-
oided. The potato grower is going to
come into his own this fall, and the
price will make it well worth while
taking care of the crop, one dealer
stated.

LYALTA

The Lyalta Non-Parelli have been
successful in winning the Southern
Alberta Intermediate Championship
this evening the right to meet Ed-
monton in the finals and we under-
stand this series is to begin in Den-
ver Sept. 6th. Congratulations to the
girls and success in the forthcoming
series. Also on Sunday the 20th of
Sept the Lethbridge Whippets will
club with the Lyalta team on Delta
court diamond. The lineup being used
is as follows: K. Gorman, C. Dug, D.
Dug, B. Dug, E. Sherman, K. Stewart,
M. Stewart, G. Conner, D. Newton.
In the near future the girls are hold-
ing a dance to defray the playoff ex-
penses and your support will be ap-
preciated. Watch for date.

Miss Price of Winnipeg is a guest
at the home of her sister Mrs. H. Law-
son.

Mrs. Don Lawson and daughter
Patty of New York have been visiting
at the Lawson home.

Mr. A. Unglaugh of Toronto is re-
visiting old acquaintances in Lyalta.

We are informed by McKenzie the
Non-Parelli manager, that arrange-
ments have been made to play the
Provincial Finals in Sylvan Lake the
coming week end, Sept. 5, 6, and 7.
Their opponents will be the Simon-
ton Orange Crush Club who are
southern champions. The best wishes
of the entire community go with
them on their quest for Provincial
honor.

Do not forget the girls Soft ball
dinner in Lindsay on Sept. 11th. The
girls need and will appreciate your
support, to aid them in paying ex-
penses of Provincial Playoff.

What in all probability was the sea-
son's most thrilling ball game of the
year, the Lyalta girls sent the Leth-
bridge Whippets home smarting under
two defeats with the following
scores 13-11 and 13-5. These games
were exhibition and were played on
the Lindsay diamond before a large
crowd of softball fans. Kay Stewart
did pitching duty for Lyalta in the
first game and won her even game by
coming through with a home run
with two on bases. She was well back-
ed throughout the game only four re-
verses being chalked against her team.
Krause was on the mound for the
Whippets and pitched a very consistent
game although the Lyalta girls had
no difficulty in securing their 12
runs.

In the second game Lyalta relied

on their left hander Clara Dug who
pitched a stellar game, while Kay
Stewart did the hurling for the Whip-
pets and played her game well, but
the heavy hitting Lyalta squad had
her at their mercy throughout. Kay
Stewart again made a home run.

The Lyalta Social Credit Club met
at the Lawson home Thursday last.
A business meeting was held follow-
ed by a delicious lunch after which a
presentation was made to Theresa
all one of their members who is
leaving shortly to train as a nurse in
Calgary Holy Cross Hospital. The
girls all expressed their regret at los-
ing one of their members but one and
all wished her well in her new voca-
tion. An address was read by Kay
Gorman and a small presentation by
the club to which Miss Vidal very
fittingly replied. The next meeting
will be held at the Bar home.

CANADIAN WHEAT BOARD

10:—

The following bulletin, dated Aug-
ust 17th, has been received from the
Canadian Wheat Board.

"The Board requests all elevator
companies to advise their agents of the
Board's position on the following
matters.

Result of the Board's Operation in
Connection with 1935 Deliveries

The Board's holdings of 1935 crop
are nearly all disposed of and while
the final results are not yet definitely
established, there does not appear to
be any possibility of a further pay-
ment on account of 1935 wheat deliv-
ered to the Board. This position re-
sults from the fact that during the
greater part of the past crop year the

market price was below the Board's
fixed price.

1935 Producers' Certificates

These certificates are clearly mark-
ed for surrender to the Board when
required. The Board has not called
for these Certificates, and producers
should retain them in their posses-
sion. Under no circumstances should
these Certificates be forwarded to the
Board."
